Primary Examiner, Art Unit 1616

This Office action is in response to telephone interviews conducted between Examiner Schlientz and applicant's attorney Allen R. Kipnes on 26 February 2009 and 3 March 2009. The finality of the Office action of 14 April 2008 is hereby withdrawn in view of the agreement set forth below.

EXAMINER'S AMENDMENT

An extension of time under 37 CFR 1.136(a) is required in order to make an examiner's amendment which places this application in condition for allowance. During a telephone conversation conducted on 12 March 2009, attorney Allen R. Kipnes requested an extension of time for 1 MONTH(S) and authorized the Director to charge Deposit Account No. 23-0510 the required fee of \$65 for this extension and authorized the following examiner's amendment. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

- Rewrite Claim 1 as follows:
 - - A method of reducing the nicotine content of a tobacco plant, said method comprising:
 - (a) damaging the tobacco plant being treated to simulate the feeding activity of the herbivore *Helicoverpa zea*; and

(b) applying to the tobacco plant a composition selected from the group consisting of an aqueous solution of glucose oxidase and a salivary extract of a tobacco plant herbivore, wherein said composition contains 2 g to 200 g of glucose oxidase per 55 gallons to inhibit the synthesis of nicotine in the tobacco plant;

wherein steps (a) and (b) are repeated to sequentially lower the level of nicotine in the tobacco plant so that the resulting nicotine content in the tobacco plant treated with the composition (i) provides a non-addictive level of nicotine in the central nervous system blood plasma of the tobacco plant user and (ii) is less than or equal to 0.01 mg nicotine per 1 gram tobacco leaf. - -

- Cancel claims 5-10 and 17-25.
- In claim 11, replace "claim 10 wherein the effective amount" with - - claim 1 wherein the amount - -.
- In claim 12, replace "non-addictive nicotine level of nicotine" with - - non-addictive level of nicotine - -.

The following is an examiner's statement of reasons for allowance: The instant claims are drawn to a method of reducing the nicotine content of a tobacco plant to less than or equal to 0.01 mg nicotine per 1 gram tobacco by damaging the plant followed by applying glucose oxidase. Musser et al. (Nature 2002) teach that wounding the tobacco plant, followed by application of glucose oxidase (GOX) results in an increase in nicotine production followed by a reduction of nicotine down to the levels present when

the tobacco plant was not wounded. Therefore, repeatedly wounding the tobacco plant followed by applying GOX would have a net result of nicotine levels that are the same as if the plant was not wounded. This is how the caterpillar *H. zea* survives eating the tobacco plant without being killed by the increased nicotine (i.e., their saliva, which contains GOX, maintains levels of nicotine that are the same as when the plant is not wounded). Therefore, one of ordinary skill in the art would expect that repeatedly damaging the tobacco plant to simulate the feeding activity of *H. zea* and applying an aqueous solution of glucose oxidase or an extract of the *H. zea* would only have a net result of nicotine levels that are the same as if the plant was not wounded. Thus, one of ordinary skill in the art would not expect the levels of nicotine to be reduced to less than or equal to 0.01 mg nicotine per 1 gram tobacco leaf, as claimed.

Also, it is noted by the examiner that the recitation of 55 gallons within the specification and claims is construed by the examiner to mean U.S. gallons.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
